

The C-Zone B.V. proudly presents:

**XL by c-zone**

**something's up. something big...**

### when size matters...

...it's time to bring out the big guns. With a keen eye for style, colour and the next trends in fashion, Dutch designer house C-ZONE has been building quite a name over the past 10 years. The quirky team now comes with a new concept and a brand to match: the world's first XL eyewear collection exclusively for men!

*U1502-80: grey / silver  
size: 58-18/150  
material: stainless steel*

### elegance and cool

The XL by c-zone collection is prepared for every taste and need in the market. Smart and traditional styles go side by side with cutting-edge, sophisticated form. Models are available in eye size 57 to 63 with a colour spectrum from subtle greys to bright bursts of red or blue.

### handpainted Berlac finishing

Each model comes in four different variations of matt finishing by Berlac, the highly acclaimed Swiss colour creator for car brands like Mercedes and BMW.

*U5502-30  
60-17/150*

60-20/150

U2502-80  
59-18/150

### easy on the eye, gentle on the skin

All XL frames are made of hypo-allergenic stainless steel, occasionally in combination with acetate or ultem.

### light and reliable

Be it single-, semi- or full-rim frames, XL by c-zone eyewear remains remarkably light in weight. But don't let that fool you: its robust and solid construction is something to rely on.
