AW/19 TREND SHEET

Each season the team at the Pantone Color Institute creates the Pantone Fashion Color Trend Report; a colour overview highlighting the top colours fashion designers showing at New York Fashion Week will be featuring in their collections for the upcoming season.

With colour on the catwalk a key indicator of the colour stories we can expect to see showing up across all areas of design, the Pantone Fashion Color Trend Report is a fantastic guide to the season's most important colour trends.
